Directions Have children listen to each number story. Have them count and record the number in all. Ask them to trace or mark Xs to show how many to take away and record this number. Then have children write the number that tells how many are left. 1 Eric sees 5 geese. Three geese fly away. How many geese are left? 2 Eric sees 6 chicks. One chick walks away. How many chicks are left? 3 Eric sees 8 ducklings. Three swim away. How many ducklings are left?
