

# 加法和减法

倍数可以帮忙做减法

想一想

$3 + 3 = \underline{6}$ , 所以  $6 - 3 = \underline{3}$ .

写出倍数的答案。

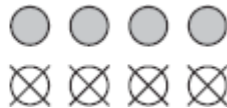

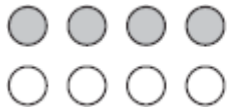

用倍数的答案做减法。

1.

$1 + 1 = \underline{2}$ , so  $2 - 1 = \underline{\quad}$ .

2.

$4 + 4 = \underline{\quad}$ , so  $8 - 4 = \underline{\quad}$ .

看图想一想 把加法和减法的算式写完。

3.  $2 + 2 = \underline{\quad}$

$4 - 2 = \underline{\quad}$
