

找到 10 做减法

找到10可以帮忙找到减法的答案。

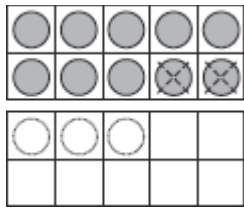

要找 $13 - 5$ 的答案，先找到13.

减掉 3 变成 10.

因为全部要减掉 5，已经先减3，所以还要减掉 2。

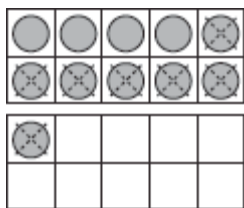

还剩下 8 个圆形。

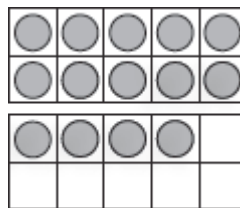

所以, $13 - 5 = \underline{\quad 8 \quad}$.

数小东西，或画图来找到答案。

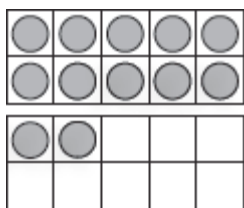

1. $11 - 7 = \underline{\quad 4 \quad}$

2. $14 - 6 = \underline{\quad \quad}$

3. $12 - 5 = \underline{\quad \quad}$

4. $13 - 7 = \underline{\quad \quad}$
